WORK EXPERIENCE

Software Engineer

Line Seiki Co. Ltd RHQ | General Trias, Cavite

May 2024 - Current

- Engineered critical user management and subscription modules for a proprietary MES application, designing core features for complex user roles and permissions
- Integrated secure payment processing via **Stripe** and **responseCRM API** to reliably handle client company subscriptions and transactions.
- Designed and built low latency **IoT API** utilizing **MQTT** protocol to connect **Smart Node** devices, enabling real-time job order and machine maintenance tracking with the MES
- Integrated the **Zendesk API** to establish a high-efficiency Support Module, streamlining ticket and inquiry request for the MES software application.

Web Developer & Web Developer Intern

Web Powerhouse Inc. | Makati, Metro Manila

May 2022 - March 2024

- Developed **10+ full-build web projects** and **50+ templated projects** for outsourced client, Wonderist Agency.
- Specialized in rapid prototyping and component-level development using combined stack of **Webflow**, **CSS**, **JavaScript**, **jQuery**, and **Webflow CMS**.
- Collaborated directly with designers and project managers to translate complex visual mockups into functional, responsive web experiences.

EDUCATION

Bachelor of Science in Computer Engineering

June 2018 - September 2023

De La Salle University Dasmarias | Dasmarias, Cavite

- Specialization in Software Engineering
